Egg Drop Challenge

- Fill a bag with materials.
- Tuck an egg inside the materials to keep it safe.
- Make a prediction... if you drop it, will the egg break open?
- Seal the bag. Hold it one foot above the table and drop it.
- Did the egg break open? If so, start over.
- It not: Hold it two feet above the table. Drop it. Did it break?

Material Tested	Prediction: Will it Break?	Result: Did it Break?
