

# Make a Hatching Animal

Choose an animal (or draw one). Cut it out and color it in.

Cut out an egg. Cut the egg in half along dotted line.

Use a paper fastener to fasten together 2 halves together.

Carefully put glue around **one edge of bottom half** of the egg, as shown.

Glue to paper.

Now, you can tuck the animal into the "pocket" of the bottom part of the egg, and open and close the top part.
